

Friedrich Lütze GmbH Postfach 1224 D-71366 Weinstadt

To the customers of  
Friedrich Lütze GmbH

Weinstadt, December 7<sup>th</sup> 2023

**Implementation of the RoHS Directive 2011/65/EU and the delegated directives (most recently 2023/171/EU) and the ElektroStoff-VO**

Our products for the automation sector are typically components of "fixed installations" or "fixed industrial large tools" (see § 1 para. 2 nos. 4 and 5 ElektroStoff-VO and Article 2 RoHS Directive). As part of such installations, our products still do not fall under Directive 2011/65/EU.

However, as a responsible and environmentally conscious company, we ensure that our products are RoHS-compliant in accordance with Directive 2011/65/EU, especially adhering to substance prohibitions or limits according to § 3 para. 1 ElektroStoff-VO and Annex II to the RoHS Directive.

Friedrich Lütze GmbH naturally adheres to national and international laws, directives, standards, and regulations and continuously monitors their changes.

We regularly check and document compliance with the requirements, particularly through our declaration of conformity according to § 11 ElektroStoff-VO. Our suppliers are involved in this process, for example, through supplier declarations as technical documentation and through information and proof obligations according to our purchasing conditions.

To our knowledge, the products delivered by us to you do not contain substances whose placing on the market would be prohibited according to the current requirements of Directive 2011/65/EU. All information provided by us corresponds to the current state of the art.

We are at your disposal for any questions.

Best regards,

Friedrich Lütze GmbH

Martin Teufel  
CEO
